

VACUUM PACKAGING MACHINE

MAP VAC DUO – DIGITAL TOUCH SCREEN CONTROL

Vacuum packaging machine designed to meet vacuum & gas packaging for pre-formed flexible pouches for shelf life extension.

Technical Specifications	
Model	MAP VAC DUO
Type	Vacuum Packaging Machine
Sealing	Pneumatic Sealing
Seal bar Length	2 x 405 mm
Pump Capacity	63 m ³ / h
Inlet Pressure	≤ 5 bar
Power Supply	440 V AC Three phase
Machine Weight	≤ 150 kg

Features

- Vacuum packaging with gas flushing.
- Easy operation via touch screen.
- Vertical frame style.
- 5 programmable memory.
- Transparent lid.
- Stainless steel & Aluminium construction.

Control Parameter

- 1) Vacuum time
- 2) Sealing time
- 3) Flushing time
- 4) Soft air time
